Elias Mumo
Front-End Developer
elismisfit@gmail.com | [GitHub](#) | [LinkedIn](#)

About Me

Passionate front-end developer specializing in creating responsive and visually stunning websites. My journey into web development began during my teenage years, driven by the dream of building software. Today, with certifications in HTML, CSS, JavaScript, and responsive design, I create websites that perform beautifully across devices.

I am eager to collaborate on real-world challenges, bringing creativity and technical expertise to help brands shine online.

Skills

- **Programming Languages:** HTML, CSS, JavaScript
- **Frameworks & Libraries:** Responsive Web Design
- **Tools & Platforms:** GitHub, Ubuntu

Education & Certifications

- **Responsive Web Design Certification** – freeCodeCamp
  [View Certificate](#)
- **HTML Certification** – Codedex
  [View Certificate](#)
- **CSS Certification** – Codedex
  [View Certificate](#)
- **JavaScript Certification** – Codedex
  [View Certificate](#)

Interests

I am deeply interested in web and mobile development, crafting websites and applications that are visually appealing and functional. When not coding, I enjoy movies and long walks, which inspire my creativity and problem-solving mindset.
